SUMMARY

Aspiring cybersecurity professional with hands-on experience in SIEM monitoring and penetration testing. Exposure to SOC operations and VAPT. Eager to learn, grow, and contribute to securing digital assets in a dynamic, security-driven environment.

EDUCATION

Bachelors Of Engineering (BE ENTC)   06/2020 – 06/2024
Jayawantrao Sawant College of engineering handewadi,pune

Professional Experience

Cybersecurity Associate L1 | Infotact Solutions
- Threat research, SIEM setup, logging & firewall implementation
- Advanced threat detection, honeypots, automation, incident response
- Pentesting, automation, final report & presentation

SKILLS

- **Vulnerability Assessment & Penetration Testing (VAPT):** Proven hands-on experience conducting comprehensive VAPT using both manual and automated approaches to identify, exploit, and report vulnerabilities in real-world environments.
- **Security Monitoring & Incident Response:** Experienced in working with SIEM tools for log analysis, threat detection, and real-time incident response. Familiar with EDR and IPS/IDS technologies to support enterprise threat defense.
- **Network & Infrastructure Security:** Proficient in Network Vulnerability Assessment and Penetration Testing, including configuration reviews of network devices and testing of IDS/IPS systems to identify security gaps and improve resilience.
- **Manual & Automation Testing:** Capable of performing detailed manual security testing alongside leveraging automation tools to accelerate detection and streamline vulnerability management.
- **Collaboration & Reporting:** Worked with different teams to share security findings and support secure development. Experienced in preparing clear and concise reports.
